

EAST MEON NEIGHBOURHOOD PLAN

Having received a positive response at the Parish Assembly, the Neighbourhood Plan project is now up and running. Three main work groups have been formed and have begun to define the tasks ahead. They are carrying out background research, as they have to analyse the current situation before moving forward. Many people have asked to be involved and each group will need all the help it can get to drive the project ahead. If you have not yet volunteered and would like to help the community complete this important strategic document, then please contact any member of the Parish Council.
