

Mtg Notes for Neighbour Plan Meeting - Glebe House, 7.00pm, 28th January.

Present – Steve, Chris, Richard & Alan (apologies Susan & Clint)

Purpose – To critique completed sections and begin integrating the story board within a template.

1. **Introduction** completed (some minor edits).
2. **Vision & Objectives** completed.
3. **What the Plan is about** – completed.
4. **Descriptions** completed (rename 'Parish Profile?'); the other sub headings are seen as perhaps unnecessary, given that the relevant ones are already mentioned within the overall section. The first page of this section has somehow been omitted in the transfer -reinstate (RB/MA).

However given that Landscape is such a key factor in the NP, decided this warrants a section separate from the Parish Profile. (AR)

5. **National and Local Planning Context** – completed. Presently within Introduction section, but yet to decide best position within the NP document.
6. **The Role of the Plan** – completed. Presently within Introduction section, but yet to decide best position within the NP document.
7. **Community Engagement/Consultation Statement.** (re work) AR
8. **Plan Preparation** – concise section required referencing evidence base AR
9. **Policies** – section largely completed but policies **E3 & E7** require input from George B & Lisa J. on best wording/construction – also need site specific policies from Lisa. SR + LJ/GB
10. **Proposals Map** - awaiting site layouts from Lisa. AR

Other Actions:

- **Photographs:** A montage of 'photos on front cover of NP document that best reflect the overall goals, and also 'photos specific to sections –i.e. landscape, houses, activities, flooding, consultations days etc. many already available on website but Chris & Alan to look for others from archives.
- Integrating into template (PDF) – **AR and Marc meeting Tuesday 2nd Feb – 2.30pm**
- **Wording** - in sections could be seen as overly defensive (i.e. fortress East Meon) The NP is essentially a planning document so while preservation is important the Examiner will be looking for a more positive view of the future – so sections still need to be wordsmithed substituting perceived negative for more positive forward looking wording. **ALL**
- **Policies & Whole document critiquing** – when the template is developed – **GT & GB**
- **Time goal** – 2 weeks and pass
